

East Gostcote Mast

2020-10-12 - Support Agent - Comments (0) - General

As a result to tree growth the link between our Syston and East Gostgote mast has slowly strarted reduced the quality of service. We are looking to schedule from Tuesday to Friday this week as more weather resilient solution. In the meantime service maybe effected by weather conditions. We will work as quick as we can to resolve and in stall the new main link.
