Interfuse Power Outage 25/01/21

2021-01-25 - Support - Comments (0) - Maintenance

Dear Customers,

At 14:15 this afternoon there was a power outage at one of our main sites due to the weather. We currently have our engineers on their way to get the power to our main link back up and running.

Sorry for any inconvenience this may cause.

Kind Regards

Gigabair Support
