Main Link - Outage Syston - 24/11/21 - RESOLVED

2021-11-24 - Support - Comments (0) - General

Dear Customers

The engineers have had to swap out and install a new radio for the main link at Syston due to the on going issues with drop outs. You should not be experiencing anymore network issues and we apologise for the disruption this has caused.

Kind Regards

Gigabair Support
