Narborough Wood Park - Main Link Down - Lightning Strike -25/09/24

2024-09-25 - Support - Comments (0) - Outage

Dear Customers

Due to the lightning strike over the weekend we have had parts of the network suffer major outages and whilst our engineers have gotten 95% of the network back up and running there are still some issues for some people. Narborough Wood Park's main link is currently down however the back up is running but this will mean a limited service until the main link can be restored. Our engineers will be attending site this morning to fix the radio and get you back up and running by the end of the day.

Kind Regards
