Network Outage ST Georges Tower 30/11/22

2022-11-30 - Support - Comments (0) - General

Dear Customers

Some of you may be experiencing a network outage due to a device on the network that is knocking customers offline. We have engineers working to get this back up and running and will be rebooting the main link. We are hoping to get this sorted as soon as possible. We apologise for any inconvenience this has caused.

Kind Regards

Gigabair Support
