Network outage St georges Tower, Birstall, Bradgate, East Gostcote, Troon Industrial Estate - UPDATE

2023-02-07 - Support - Comments (0) - General

Dear Customers

There has been another outage affecting the network at St George's tower, Troon Industrial Estate, Narborough Wood Park, Bradgate Park, East Goscote and more. This is due to the time synchronization error on the Bonder at St George's Tower that manages the areas affected by the outages. Changes have been made and we are monitoring this throughout the day.

Kind Regards

Gigabair Support
