Park Farm, Coplow, Launde - Outage - Power works -03/06/25

2025-06-03 - Support - Comments (0) - Outage

Those of you at Park farm , Coplow, Launde and Tilton will experience a network outage at some point today. This is due to works at the mast needing to be conducted in regards to power. We are going to try and get a generator in place to avoid an outage but should this not work the outage is expected to last between 10-30 minutes, Unfortunately this is out of our hands and we apologise for the short notice.

Kind Regards
