Park Farm Radio Realignment - 31/07/24

2024-07-31 - Support - Comments (0) - General

Dear Customers,

The engineers are conducting work on the radio at Park Farm due to tree foliage in front of the radio. They are planning on ewxtending the poll the radio is on to avoid the trees and gain a better signal. The customers affected by this wil be Park Farm, Withcote, Launde and you should expect some disruptions being some drop outs or slower speeds whilst the new poll is installed.

Kind Regards
