Park Farm/Launde Network Outage 27/01/2023

2023-01-27 - Support - Comments (0) - General

Dear Customers

The network provided to Park Farm and Launde is currently down due to power. We have just been made aware that works on the power supply are being conducted and swapped over to another more stable power source. This is unfortunately out of our control as this work isn't being conducted by Gigabair. We apologise for the inconvenience this may cause.

Kind Regards

Gigabair Support
