Radio Link Repairs Due to Weather Damage - 03/01/24

2024-01-03 - Support - Comments (0) - General

Dear Customers,

Our engineers are out on sight all day doing repairs to various radio links at different masts to repair any damage caused by the weather over the christmas period. Please refrain from directly contacting the engineers as they will be working at heights and cannot answer incoming phone calls. If you have any issues please put a ticket on via the ticket system <https://xpon.deskpro.com/new-ticket>.

Kind Regards

XPON Support
