## Ridge Farm Broadband Outage

2020-02-20 - Support - Comments (0) - General

Dear Customers

We would like to inform you that there is currently a network outage affecting all Ridge Farm Customers. We have identified there has been a powercut at the mainsite where the main radio link for Ridgefarm is hosted. We will update you as soon as possible when we are provided a time scale of when they can get the power up and running.

Kind Regards

Gigabair Support
