RidgeFarm Mast - Network Disruptions - Engineers On Site 24/01/24

2024-01-24 - Support - Comments (0) - General

Dear Customers,

Due to storm Isha and storm Jocelyn there has been weather damage to the Ridge Farm Mast affecting Bawdon lodge and customers around the area. It is currently an extremely dangerous situation with one of the poles coming loose and with the winds still high it is making it hard for our engineers to conduct this work. There will be disruptions to the network which the work is carried out as safely as possible, unfortunately this work will take longer than anticipated.

Kind Regards
