Severe Weather Affecting Links At Eascote and St Goegre's Park Mast - 13/10/23

2023-10-13 - Support - Comments (0) - General

Dear Customers

You may be experiencing outages with your broadband service this is due to the severe weather interfering with the main radio at the East Gosport and St Georges Park Mast. The connections affected will be Six Hills, East Gosport, Thorpe Satchville, Reasby areas and will be sporadic until the severity of the rain has decreased. We appreciate your patience at this time.

Kind Regards
