## St Georges Maintenance (Emergency Level)

2022-12-30 - Support Agent - Comments (0) - General

Due to an ongoing core network issue, engineers from our Hong Kong Vendor will be working on the core network for the next 2 hours, this may result in short periods of outages. Where we would like to do this out of hours, this is unavoidable.

We apologise for the inconvenience and hope to resume service as quick as possible. Work will start around 8:45
