STORM JOCELYN - Network Disruption 24/01/24

2024-01-24 - Support - Comments (0) - General

Dear Customers,

As you are aware yesterday we updated you to let you know you may experience some small drop outs and slower than usual speeds due to storm Jocelyn. Please bear with us today as our engineers are out onsite trying to rectify the issues caused by the weather over the last few days. We hope to get everyone affected back to their usual speeds as soon as possible.

Kind Regards

XPON Support
