Syston/Birstall Network Outage - 17/05/2021 - Update - Power Cut

2021-05-17 - Support - Comments (0) - General

Dear Customers

We have just had an update in regards to the network outage affecting Birstall and Syston Customers. This is due to Western Power doing work on the power lines at Birstall industrial estate where our mast is located and is unfortunately out of our hands.

They have given us a time of 2pm for the power to be back up and running.

Kind Regards
