Syston - Main Line issues - 10/06/2024

2024-06-10 - Support - Comments (0) - General

Dear Customers,

We are currently experiencing issues in Syston at the main office with the main line as there is an issue with CG Net. Our provider is currently investigating the issues but this means with the ongoing issues customers will be experiencing latency issues with phone calls and broadband connection. We appreciate your patience whilst this is being investigated by our provider.

Kind Regards

XPON Support
