Troon Industrial Estate - Outage - 06/08/24

2024-08-06 - Support - Comment (1) - General

Dear Customers

We have seen one of the main radios has gone down at the troon industrial estate mast meaning a complete network outage for all customers in this area. We are working to try and get this resolved which we believe to be a power issue. We apologise for the inconvenience this has caused and aim to get this resolved as soon as possible.

Kind Regards

XPON Support
