Troon Network Outage - 13/04/2021

2021-04-13 - Support - Comments (0) - Network Outages

Dear Customers

There is currently a network outage at Troon Industrial Estates affecting all customers in that area we believe due to power. We currently have an engineer on way to attend site and should be there in the next 30 minutes to resolve the issue. We apologise for any inconvenience this has caused.

Kind Regards

Gigabair Support
